

Isover Insulation

Thermal insulation solutions

Isover insulation

Artex Ltd are pleased to announce that Isover Insulation is now available as part of the wide product range incorporating other leading brands such as Artex, Gyproc, Gyproc Tools, Thistle and Blue Hawk.

Why insulate?

Homes which are not sufficiently insulated will suffer from high levels of heat loss through lofts and cavity walls.

Insulating homes can help to:

- Reduce energy bills
- Create an even temperature in your home
- Reduce carbon emissions

In April 2006 guidelines were introduced to increase energy efficiency in homes and tackle climate change. Part L Building Regulations apply to both new build (L1A) and existing (L1B) dwellings. For new build, a SAP calculation must be used to show the required reduction in CO₂ emissions and in turn the U-Values needed to achieve this. For existing dwellings it is more simple, with a range of elemental, target U-Values to meet. Isover insulation products can be used to attain these U-Values and therefore satisfy the regulations.

Environmentally friendly

Isover Insulation is manufactured in the UK and is one of the most environmentally friendly insulants available. Approximately 80% of the raw material used in the production of Isover products is recycled from sources which would otherwise go to landfill.

Available products

Isover CWS (cavity wall system)

Isover CWS is a silicone impregnated glass mineral wool slab suitable for providing thermal insulation in full-fill masonry cavity wall applications. CWS is a high quality, strong and resilient insulation slab.

- Easy to cut, handle and install
- Completely fire-safe
- Robust - fibrous faces will follow wall contours leaving no airspaces and edges of adjacent slabs will 'knit', leaving no penetrating air gaps.

Isover Spacesaver

Isover Spacesaver is high quality glass mineral wool suitable for providing thermal insulation in domestic - type pitched roofs.

Supplied on a roll, Spacesaver is perforated to allow the choice of a full, half or third width.

- Easy to install
- No waste
- Totally non - combustible Euroclass A1 fire rating, the best attainable.
- Excellent thermal and acoustic performance

Product name	Width (mm)	Length (mm)	Pack area (m ²)
Spacesaver 100	1160	9170	10.64
Spacesaver 150	1160	6030	6.99
Spacesaver 200	1160	3880	4.50
CWS 75	455	1200	8.74
CWS 100	455	1200	6.55

Additional products

Artex offer a wide range of complementary products for home improvements:

Gypframe Easi-Wall - the all-in-one metal stud partitioning kit, everything you need to build a partition to create a new room or area such as a home office or en-suite.
