**& SPEEDTAPE**

The market leading mechanical jointing system

Plus Gyproc Tool Hire

## Perfect jointing time after time

Since 1966, SpeedTape has been leading the field in mechanical jointing – making plasterboard jointing easier, less labour intensive and up to 50% quicker than hand jointing.

With the introduction of new SpeedTape PRO, our best ever mechanical taping tool, we really can make a difference to your business – saving you time, effort and money.

### Service and support that's second to none

It's only right that the industry's most advanced taping tool systems should be backed by the industry's leading technical support team. Our highly experienced and helpful team is on hand to answer queries and give you advice on getting the best from your system. From choosing the right tools and accessories to arranging a full operator training programme through the British Gypsum Drywall Academy, you can be sure all the help you need is just a phone call away.

- Free on-site demonstrations – our expert Demonstration Team is available nationally to provide you with free on-site demonstrations and support, enabling you to try before you buy.
- Spares and service – parts and spares are kept in stock in the UK, so you can be sure of a quick response to keep your system running round the clock.
- Rapid despatch – our team will get any tool or spare delivered to most UK post codes within 48 hours.

## With Gyproc Tools you can BUY or HIRE

Buy – SpeedTape PRO is our best system yet and competitively priced too. Call 0800 032 6345 to order or buy online. See pages 4–11

Hire - The original SpeedTape is available to hire from Gyproc Tools – giving you all the efficiencies for a competitive rental rate. See pages 12–15

## Make more money – turn PRO

### Why buy SpeedTape PRO?

- **Fast and efficient** – SpeedTape PRO is up to **50% quicker** than hand jointing, meaning that taping jobs can be completed quicker, maximising resources and improving efficiency.
- **Excellent value for money** – SpeedTape PRO has never been so affordable. For the very best value, choose one of our starter packs, saving you even more!
- **Handy and accurate** – features the latest in ergonomic design, making it easier to tackle flat joints, angles and internal corners on both walls and ceiling with great accuracy.
- **Versatile** – choose from 20 accessories to guarantee a quality finish in a variety of applications, especially where hand jointing could prove difficult.
- **Quality and consistency of finish** – provides a consistent and quality finish time after time.
- **Durable and reliable** – built to last, featuring highly durable stainless steel and aircraft aluminium parts.
- **Peace of mind** – all SpeedTape PRO products are supported by a comprehensive 2 year warranty.
- **Convenience** – all SpeedTape PRO products are stocked in the UK for **delivery within 48 hours**. An on-line ordering facility is also now available, allowing you to purchase SpeedTape PRO 24 hours a day from your PC.
- **Rapid turnaround repairs service** – SpeedTape's comprehensive **5 day repair** facility allows you to minimise down time and keep your tools operational on site.
- **Technical support and back up** – A technical team is on hand to answer your questions and a full support package is available featuring user manuals, instructional DVD and website ([www.speedtape.com](http://www.speedtape.com)).
- **Trade-in offer** – after 2 years of ownership, trade in your original SpeedTape PRO tool for the latest model at a significantly discounted rate.

### Visit our new website: [www.speedtape.com](http://www.speedtape.com)

To coincide with the launch of SpeedTape PRO, we've got a great new website! As well as providing a wealth of information on the SpeedTape range, you can also order products, spares and accessories quickly and easily, request a demonstration DVD, view an online demo and a whole lot more.

# GET PEACE OF MIND WITH SPEEDTAPE PRO

SpeedTape PRO has been designed to withstand the rigours of site work, but even with the most robust systems sometimes maintenance is required. When it does, with our help, you will be up and running again in no time. A highly trained team of engineers mans our extensive maintenance facility and we aim to repair any tools and return them to you within **5 days**.

We also maintain a complete inventory of spares. These can be fitted by our engineers or alternatively, if you are familiar with the mechanics of the SpeedTape PRO system, they are available for sale. See pages 10 and 11 for more details. The most common spares can be bought online at [www.speedtape.com](http://www.speedtape.com). Otherwise, the full set of over 500 spares is available from our SpeedTape maintenance facility. Call **0800 032 6345 (option 4)** to order your parts or book in with our engineers.

**REPAIRS AVAILABLE**

**TRADE IN**

**2 YEAR WARRANTY**

## SpeedTape PRO purchase support package

- All tools in the SpeedTape PRO range are covered by a 2 year warranty. In the event of a breakdown, we will arrange to collect your tool and aim to return it in full working order within just 5 days of receipt.
- After the initial 2 year period, you can trade in your original SpeedTape PRO tool for the latest model at a significantly discounted rate.
- If your SpeedTape PRO tool is no longer covered by a warranty, send it to our engineers and we will provide you with a competitive quotation within 24 hours. In the vast majority of cases, the repaired tool will be back with you within 5 days of us receiving it.

## Technical back up

- Comprehensive Operator's Manual
- Step by Step user DVD
- Dedicated website ([www.speedtape.com](http://www.speedtape.com))
- Telephone support service – 0800 032 6345 (option 4)
- On-site demonstrations and product training
- Detailed schematics to assist with maintenance and spare part selection.

Please note, the warranty package only covers damage and breakage caused by generally accepted wear and tear.

**NEW TO BUY** Save time, money and effort **SPEEDTAPE PRO**

SpeedTape PRO products feature the latest in autotaping technology. Redesigned with the user in mind and distinguishable by their distinctive blue colour, SpeedTape PRO tools are easy to operate and require less maintenance than other autotaping options.

Stainless steel components have been incorporated for greater durability and handles are manufactured from heavy-duty aircraft aluminium to reduce weight whilst increasing strength.

SpeedTape PRO sets have been tailored to provide a 2 man jointing team with the right tools to successfully carry out specific tasks. The collections vary from a Finisher's Set, containing five tools to tapered edge joints, to a Full Set which contains every accessory in the SpeedTape PRO range. All sets offer great value for money and benefit from the usual 2 year SpeedTape PRO warranty.

## Automatic Taping System – SPEEDTAPE PRO

### A SpeedTape PRO Automatic Taper

- The very latest in mechanical taping technology.
- Ergonomic design to easily tackle flat joints, angles and internal corners.
- Automatically applies the optimum amount of Gyproc Joint Cement and Gyproc Joint Tape simultaneously.
- Stainless steel components to make the product more durable and reducing the risk of corrosion.
- Redesigned internal components to increase strength and reduce wear and tear.

**Product Code: 84831** **£886.80**

### B SpeedTape PRO Corner Roller

- Used on internal angles.
- Embeds tape and forces out excess material in one easy action in preparation for finishing.
- Improved wheel design helps smooth running of the wheels and reduces the risk of locking.

**Product Code: 84846** **£80.07**

### C SpeedTape PRO Corner Roller Handle

- Designed for use with the corner roller.
- Manufactured from heavy duty aircraft aluminium tube.
- Lightweight yet 50% stronger than other aluminium handles.

**Product Code: 84847** **£32.71**

**B**

**D**

**A**

**C**

**E**

### D SpeedTape PRO Corner Finishers

- Used after the Corner Roller to evenly distribute surplus material.
- Also used as an attachment to the Corner Applicator to apply and feather out the internal angle joint in one easy operation.
- Should be used with a Corner Finisher Handle.

**2" Corner Finisher – head only**  
**Product Code: 84839** **£212.88**

**3" Corner Finisher – head only**  
**Product Code: 84840** **£227.96**

### E SpeedTape PRO Corner Finisher Handle

- Designed for use with the SpeedTape PRO Corner Finisher.
- Manufactured from heavy duty aircraft aluminium tube.
- Lightweight yet 50% stronger than other aluminium handles.

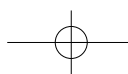

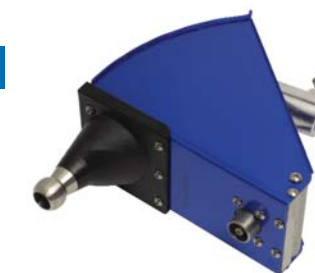

**Product Code: 84841** **£32.71**

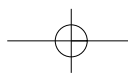

### F SpeedTape PRO 7" Corner Applicator

- Used to apply the correct amount of Joint Cement to a taped internal angle.
- Used in conjunction with the SpeedTape PRO Corner Finisher.
- New lightweight cone design.
- Redesigned to be robust and easy to maintain.

**7" Corner Applicator**  
**Product Code: 84842** **£155.81**

**F**

## NEW TO BUY Save time, money and effort

### A SpeedTape PRO Corner Applicator Handle

- Designed for use with the 7" Corner Applicator.
- Redesigned bracket and hinge bearings provide extra strength and robustness.

Product Code: 84843 £32.71

### B SpeedTape PRO 2" Nail Spotter

- Used to provide an even fill of Gyproc Jointing Compound over a line of flush nail or screw heads.
- The integral blade removes surplus material for a clean finish.

Product Code: 84844 £143.51

### C SpeedTape PRO Nail Spotter Handle

- The SpeedTape PRO Nail Spotter Handle is designed for use with the Nail Spotter.
- Manufactured from heavy duty aircraft aluminium tube.
- Lightweight yet 50% stronger than other aluminium handles.

Product Code: 84845 £32.71

### D SpeedTape PRO Quick Release Pump

- Used with the Filler Nozzle or Gooseneck to load the full range of tools quickly and easily.
- New design allows the pump barrel to be released easily for regular cleaning.
- Can be used with Gyproc Easi-Fill jointing compound.

Product Code: 84848 £230.14

### E SpeedTape PRO Filler Nozzle

- Used with the Quick Release Pump to load Quick Release Boxes, Nail Spotter and Corner Applicators.
- Improved design has been tested to a minimum of 250,000 pump cycles.

Product Code: 84850 £32.80

WWW.SPEEDTAPE.COM

## Automatic Taping System – SPEEDTAPE PRO

### F SpeedTape PRO Gooseneck

- Used with the Quick Release Pump to load the Automatic Taper.
- Specially designed urethane cup seal lasts up to 50% longer than most rubber seals.

Product Code: 84849 £49.45

### G SpeedTape PRO Quick Release Boxes

- Used for the application of Gyproc Joint Cement to taped flat joints.
- When the three Boxes are used in combination, a perfect crown is achieved, requiring minimal sanding.
- Features an integral quick release lid to allow easier cleaning. This also provides the option of applying Gyproc Easi-Fill jointing compounds where regular and thorough cleaning is required before materials are allowed to set.
- Includes an all in one composite blade holder for a quicker and easier blade change.

7" Quick Release Box  
Product Code: 84832 £202.90

10" Quick Release Box  
Product Code: 84833 £254.84

To purchase spare parts, visit [www.speedtape.com](http://www.speedtape.com) or call 0800 032 6345 and choose Option 4. A team of experienced engineers are on-hand to advise on the correct part selection and to answer your technical queries. Detailed drawings of the tools are also available on [www.speedtape.com](http://www.speedtape.com) to assist with part identification.

# SPEEDTAPE HIRE

## THE MARKET LEADING MECHANICAL JOINTING SYSTEM

SpeedTape is available on a flexible hire service. Hiring is the ideal option if tools are only required for a fixed period of time or if you prefer not to make the outlay to purchase the tool outright.

Tools can be hired individually or in any combination required and additional tools may be added to the hire agreement, whenever the need arises.

The hire scheme is backed up by a free maintenance and replacement service, meaning that in case of any maintenance or repair requirement, we will react quickly to keep your tools operational.

You will find that the rates are very reasonable and the tools should pay for themselves by the extra efficiency you achieve on site. For instance, the Automatic Taper is available for **hire at only 79p per day**. What's more, the longer you hire a tool for, the cheaper the hire rate becomes.

### Why use the **SpeedTape** system?

- **Fast and efficient** – SpeedTape is up to 50% quicker than hand jointing, meaning that taping jobs can be completed in a shorter period of time, maximising resources and improving efficiency.
- **Handy and accurate** – its classic design makes it easier to tackle flat joints, angles and internal corners on both walls and ceiling with great accuracy.
- **Versatility** – select from a full range of accessories for a quality finish in a variety of applications where hand jointing could prove difficult.
- **Quality and consistency of finish** – SpeedTape provides a consistent and quality finish time after time.

### Reasons to hire **SpeedTape**

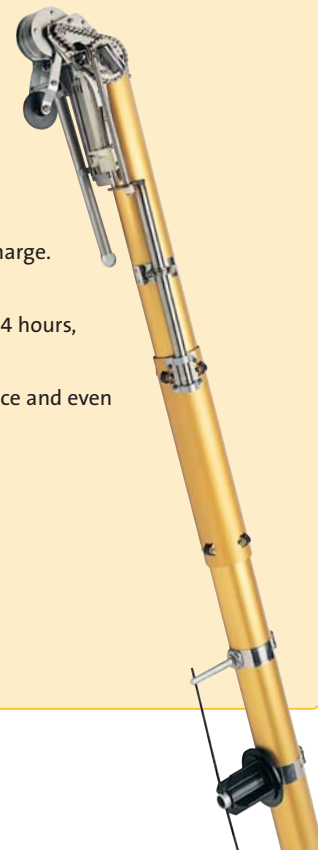

- **Economical** – hire the Automatic Taper from only 79p per day\*.
- **Deal with the market leader** – SpeedTape is a trusted brand with over 40 years of customer satisfaction behind it.
- **Loyalty discounts** – the longer you hire a tool for, the less you pay.
- **“No quibble” maintenance service** – we'll keep your SpeedTape in working order without charge. Simply return the tool and we will get it back to you in faultless condition.
- **Rapid exchange service** – if a replacement product is needed, it will be despatched within 24 hours, minimising your down time.
- **Technical back up** – a dedicated technical team is in place to answer user queries, offer advice and even arrange personal demonstrations.
- **Special offers!** – check [www.speedtape.com](http://www.speedtape.com) for the latest deals.

For Hire Centre call: **0800 032 6345 / OPTION 3**

Notes

1. The minimum hire period is 2 months.
2. A deposit is payable on each hire item. This is returnable provided that the tool is returned in good condition.
3. We can only currently service customers in the UK.

\*Plus VAT

Product Code: 15656 £63.00

Dryliners' choice for professional tools **SPEEDTAPE PRO**

Gyproc Tools comprises a range of innovative and time saving tools, specially designed for drylining and plastering professionals.

To increase flexibility to you, several of the higher value items are available on a hire basis as well as for purchase, allowing you to benefit from the tools for a specific project or activity without having to buy the goods outright.

**E Gyproc Power Sander**

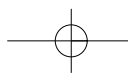

- Makes light work of larger drywall jointing projects.
- Rotating sand head is adjustable in 2 planes.
- Enables easy operation when working either close to a soffit, near to the ground or when sanding ceiling joints.
- Use in conjunction with a dedicated wet/dry vacuum extraction unit.
- Both the Gyproc Power Sander and the Gyproc Wet/Dry Vacuum Extraction Unit are controlled simultaneously from a single switch on the sander hand grip.
- 100v power.
- Variable speed in 4 steps from 1000rpm – 2000rpm.
- 4m hose length.

Product code: 19406 £750.00

**F Gyproc Wet/Dry Vacuum Extraction Unit**

- Connects to the Gyproc Power Sander and Gyproc Compact Power Sander to maintain a clean and healthy working environment.
- 100v power.
- 45 litre capacity.
- 4m hose length.

Product code: 10005 £399.00

**BUY or HIRE** G-In™ Plasterboard Handling & Transportation

The G-In™ system transfers plasterboards from the delivery vehicle onto the building site, transports them to the place of application and will position them ready for installation, avoiding all manual handling.

**A G-In Lift Truck**

- Hydraulic pump action trolley to move plasterboard stacks to the exact site of installation.
- Works with the G-In™ Lift Rack.
- Also highly effective if used for moving plasterboard stacked from a crane or forklift too.
- Highly manoeuvrable 4 wheeled steering.
- Tight turning circle of 1.5 metres.
- Handle detaches for even tighter spaces or for easier unit transportation.
- Profiled steel with pressure impregnated wood platform.
- Puncture-proof tyres, pop-up spacer bars and detachable cargo supports.

Product Code: 19550 £1,325.00

Complete Hydraulic Unit Product Code: 19557 £383.00

Puncture-Proof Wheels Product Code: 19016 £99.00

**B G-In Transit Bench**

- A plasterboard transporter and work bench in one product!
- Transports several sheets of plasterboard vertically.
- Then converts into a sturdy working bench at safe working height.
- Allows plasterboard cutting and preparation to be carried out at correct working height.
- Positioning of the transit bench wheels provides steady transportation – even over thresholds, cables, pipes and other small obstacles!

Product Code: 19551 £770.00
