Dryliners' choice for professional tools

As a dryliner, quality products designed for your specific applications are what you demand to deliver superior results for your clients. Gyproc Tools are the professionals' choice.

Plasterers' choice for professional tools

Your work as a professional plasterer can include fibrous plastering, solid plastering and plaster skimming of plasterboards on everything from large commercial developments to small-scale domestic extensions, repairs and restoration. Such a varied scope of work needs the support of a professional set of tools for every plastering job.

SPEEDTAPE PRO

Everything a Dryliner will ever need to achieve a professional, quality finish, every time...

Jointing Knives

A Gyproc Jointing Knife

- Extra strong ExtraFlex blued steel blades
- Comfort plastic handles
- Available in 4 sizes

200mm - Product code: 60319

250mm - Product code: 60320

300mm - Product code: 60321

350mm - Product code: 60454

B Gyproc Jointing Knife – stainless steel

- High-Flex stainless steel blades
- Blade depth 75mm
- Strong non-ferrous back plate
- All-day comfort SoftGrip handle
- Available in 4 sizes

200mm - Product code: 09360

250mm - Product code: 09361

300mm - Product code: 09362

350mm - Product code: 09363

C Gyproc Jointing Knife – tempered steel

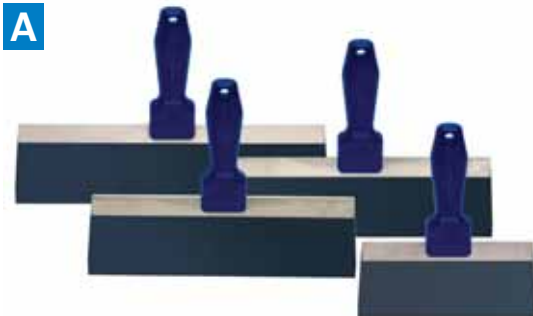

- Extra strong ExtraFlex blued steel blades
- Blade depth 75mm
- Strong non-ferrous back plate
- All-day comfort SoftGrip handle
- Available in 4 sizes

200mm - Product code: 09364

250mm - Product code: 09365

300mm - Product code: 09366

350mm - Product code: 09367

Drylining hand plasterboard jointing tools

D Gyproc Hammer Head Jointing Knife

- Ground and polished steel blades
- Hardwood SoftGrip handles
- Metallic end-caps to knock-back protruding nail heads
- Available in 3 sizes

100mm - Product code: 15669

125mm - Product code: 15308

150mm - Product code: 15196

E Gyproc Hammer Head Jointing Knife – stainless steel

- High flexibility stainless steel blades
- All day comfort SoftGrip handle
- Metallic end-caps to knock-back protruding nail heads
- Available in 3 sizes

100mm - Product code: 09387

125mm - Product code: 09388

150mm - Product code: 09381

F Gyproc Broad Knife

- Use for flattening joint tape and for the removal of excess jointing compound
- Lightweight tubular alloy shaft
- Extra strong ExtraFlex blued steel blades
- 175mm blade width – overall length 470mm
- Replacement blades available

Product code: 60422,

Replacement blades - Product code: 15165

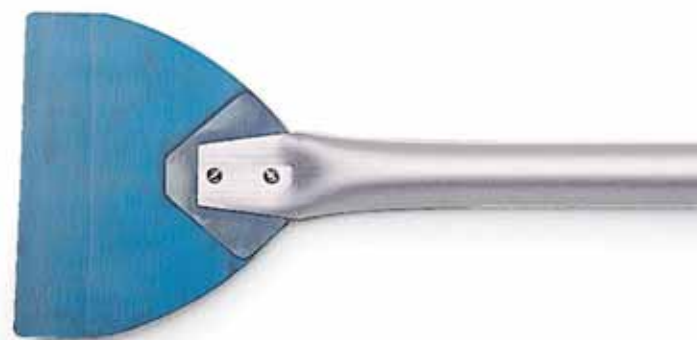

D

E

F

And don't forget...

Jointing Sponge

- Circular plastic and foam sponge for use when jointing
- Diameter 190mm

Product code: 60208

Gyproc Flexi-Knife

- A highly flexible jointing tool designed for finishing obtuse angles
- Ideal when finishing bay windows etc
- Handle may be extended with a standard 25mm shaft if required

Product code: 60481

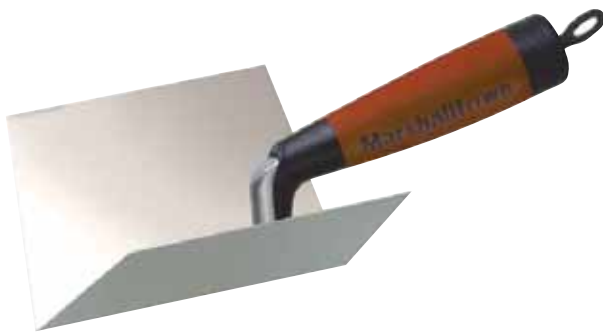

A

B

C

And don't forget...

Plasterboard Hammer

- Forged Steel head specially machined to dimple plasterboard
- Hickory shaft

Product code: 15397

Forged Steel Drywall Hammer

- Made from one-piece of solid steel
- Crowned and machined head-face to ensure accurate nailing of plasterboard
- The pattern on the head-face designed to dimple the plasterboard, making 'spotting' easier
- Cushioned nylon-vinyl hand grip means it is comfortable use – and won't wear out

Product code: 60380

Corner Tools

A Gyproc Internal Corner Tool

- Stainless steel blade
- Hardwood handle
- 100mm blade wing width

Product code: 15214

B Gyproc Internal Corner Tool – stainless steel

- With 103' high-flex sprung stainless steel blade – for precise bedding of Gyproc Corner Tape
- Soft grip handles
- Blade size 100mm x 125mm

Product code: 09368

C Marshalltown Internal Corner Tool – stainless steel

- Sprung blade – for precise bedding of Gyproc Corner Tape
- Available in 2 sizes

M23D Blade wings 4 x 5" - Product code: 15246

M24D Blade wings 5 x 3 3/4" - Product code: 15261

Drylining Hawks, Trowels and Pans

D Gyproc Dryliners Trowel

- Cost-effective trowel
- One-piece composite handgrip
- Ideal for applying Gyproc Jointing Materials or for the application of Gyproc DriWall Adhesive
- Width 120mm x Length 280mm

Product code: 60313

E Marshalltown Joint Finishing Trowel

- Wooden handle
- Concave blade
- M12 11 x 4 1/2"

Product code: 60463

Drylining hand plasterboard jointing tools

F Gyproc Bucket Trowel

- Stainless steel blade
- Special shaped blade for efficient use with a mixing bucket
- Blade 150mm x 80mm

Product code: 60458

G Gyproc Hawk

- Premium quality, lightweight aluminium alloy
- Detachable Soft Grip handle
- Rubber callous guard for comfortable use
- 325mm x 325mm

Product code: 09383

H Cement Pan – stainless steel

- High quality stainless steel jointing compound tray
- Wide enough to accept a 350mm Jointing Knife

Product code: 09384

I Cement Pan – bladed

- Jointing compound tray with removable steel blade located on long edge
- Length 300mm x Width 125mm

Product code: 60424

J Thistle Plaster Finishing Trowel

- Range of premium quality stainless steel plaster trowels
- 'Gold' treated blades to prevent staining
- Centre-ground blades to produce an extra smooth face
- All tools have a lightweight magnesium tang which complements the ergonomic Soft Grip handle for perfect balance and reduces user fatigue
- Hand finished blade edges give a ready 'broken-in' feel giving an impeccable end result to be achieved from the first day of service
- Available in 3 sizes

305mm x 125mm - Product Code: 09378

330mm x 125mm - Product Code: 09379

355 x 125mm - Product Code: 09380

E

F

G

H

I

J

And don't forget...

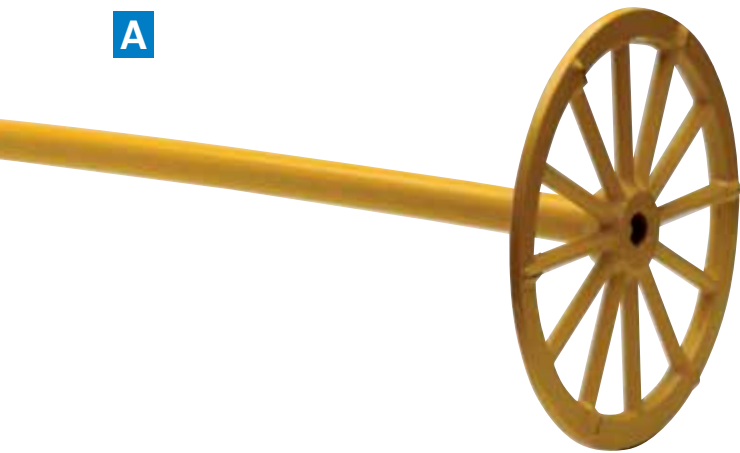

Gyproc Joint Tape

- Paper tape designed for reinforcing flat joints and internal angles
- Can be used manually as well as with the SpeedTape mechanical jointing system
- Available in 150m rolls

Product code: 19646

A

Mixing Wheels

A General Purpose Mixing Wheel

- Light yet effective mixing wheel
- Suitable for bucket mixing of Gyproc jointing materials and Thistle finishing plasters

Product code: 60451

B Heavy-Duty Mixing Wheel

- Forged steel mixer suitable for heavy-duty use with all Thistle plasters, Gyproc Cove and DriWall Adhesives and Gyproc Jointing Materials
- Designed to minimise material build-up on bucket walls

Product code: 60040

B

Mixing Vessels

C Gyproc Mixing Tubs

- Durable polyethylene mixing tubs with moulded handles for easier lifting and carrying
- Ideal for all types of plaster, jointing compounds and mortars

25 Litre, 400mm diameter, 300mm deep

Single - Product Code: 15436

Pack of 5 - Product Code: 15437

40 Litre, 450mm diameter, 330mm deep

Single - Product Code: 15438

Pack of 5 - Product Code: 15439

65 Litre, 550mm diameter, 420mm deep

Single - Product Code: 15440

Pack of 5 - Product Code: 15441

C

Manual mixing preparation

D Mixing Bath

- A large and sturdy polypropylene vessel, ideal for plaster mixing
- 165 litre capacity
- 120mm length, 510mm width

Single - Product Code: 15274

Pack of 5 - Product Code: 15659

Pack of 10 - Product Code: 15307

D

E Heavy-Duty Mixing Bucket

- Tough, polypropylene site bucket– will outlive the PVC alternatives many times over!
- 30 litre capacity
- 380mm depth

Single - Product Code: 15300

Pack of 10 - Product Code: 15306

E

E Gyproc Bucket Trowel

- Stainless steel blade
- Special shaped blade for efficient use with a mixing bucket
- Blade 150mm x 80mm

Product code: 60458

F

Collomix

The Collomix range of professional mixing tools save time, money and effort on site. Designed to mix a variety of materials with maximum safety, each one incorporates unique gear systems and ergonomic design technology for operator comfort.

A Collomix CX10 Power Mixer

Batch loads < 30 litres

- Powerful yet light and compact electronic power mixer with a single speed gearbox
- Ideal for mixing batch loads of up to 30 litres
- Adjustable speed control up to 670rpm
- Supplied complete with a WK120 mixing paddle

110 volts - Product Code: 19527

230 volts - Product Code: 19523

B Collomix CX20 Power Mixer

Batch loads < 40 litres

- 2 speed gearbox provides speed control to handle a wide range of jobs easily
- A rugged and powerful machine designed for mixing batches of up to 40 litres
- Adjustable speed control from 400 to 700rpm
- Supplied complete with a MK120 negative mixing paddle

110 volts - Product Code: 19526

230 volts - Product Code: 19522

C Collomix CX40 Power Mixer

Batch loads < 65 litres

- Powerful universal mixer designed to cope with high demand!
- Powerful motor and 2 speed gearbox combined with a heavy-duty drive system provides reliability and a long working life
- Ideal for high viscosity mixing in batches up to 65 litres
- Supplied complete with a MK140 negative paddle

110 volts - Product Code: 19525

230 volts - Product Code: 19521

D Collomix CX60 Power Mixer

Batch loads < 90 litres

- Top of class machine for the most demanding heavy-duty applications!
- Featuring sophisticated electronics, 2 speed gearbox – this machine is ideal for continuous use on site
- Ideal for high viscosity mixing in batches up to 90 litres
- Supplied complete with a MK160 negative paddle

110 volts - Product Code: 19524

230 volts - Product Code: 19534

Duo Hexafix Collomix

New to the Collomix range of professional mixing tools are the Duo Hexafix Paddle models that save even more time, money and effort on site.

The Duo range machines feature double the mixing power with two counter-rotating paddles that suit the machine's HexaFix transmission coupling – meaning easy disassembly of the paddles from the unit!

Hexafix – the simple way to change!

The new Hexafix coupling system for Collomix power mixers means the mixers can be changed over without the need for any tools!

E F

E Collomix Duo CX22 Power Mixer

Batch loads - 50 litres

- Outstanding power and capability is provided with the new Duo CX22 Collomix mixer
- Features a 2 speed gearbox for versatile mixing
- Additional power means it is comfortable to use and steer in even the most viscous of mixes
- Supplied complete with a pair of MK120 HF mixing paddles

110 volts - Product Code: 09373

F Collomix Duo CX44 Power Mixer

Batch loads - 90 litres

- Outstanding power and uncompromising forced action mixer – designed for continuous daily use on site!
- Features a 2 speed gearbox for versatile mixing
- Can handle even the toughest of mixes in batches of up to 90 litres
- Supplied complete with a pair of MK140 HF mixing paddles

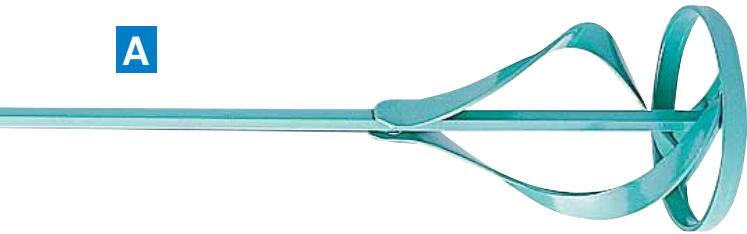

110 volts - Product Code: 09375

Collomix Paddles

All Collomix power mixer paddles are made of steel with a powder-coated finish and feature strong welded joints ensuring ultimate strength, operational safety and the longest useful working life!

The range of paddles offered means there are paddles for all requirements and types of mixing. For optimum mixing results it is essential to select the right mixing tool. Depending on what sort of material you are mixing, you will need different paddles as follows:

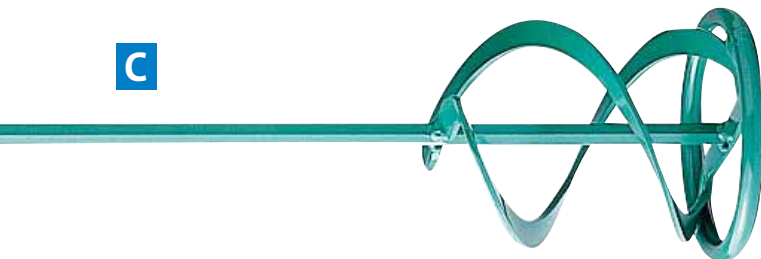

A

B

C

D

A Collomix FM Paddles

- Classic paint mixer

100mm diameter M14 thread shaft

Product Code: 19505

60mm diameter Hexafix shaft

Product Code: 19501

80mm diameter Hexafix shaft

Product Code: 19502

100mm diameter Hexafix shaft

Product Code: 19503

120mm diameter Hexafix shaft

Product Code: 19504

140mm diameter Hexafix shaft

Product Code: 19531

B Collomix KRK Paddles

- Simply attach to your power drill for fast effective mixing!
- Mixing tools with galvanised shaft and a plastic basket which generates a powerful suction effect – swirling the material without splashing!
- Suitable for small volumes of thin material

Product Code: 19500 – KRK60

C Collomix WK Paddles

- Suitable for a wide range of mixes
- Features a double mixing helix making it easy to guide
- Suitable for most viscous and sticky materials such as plaster, ready-mixed mortar and tile adhesives

120mm diameter M14 thread shaft

Product Code: 19509

140mm diameter M14 thread shaft

Product Code: 19510

90mm diameter Hexafix shaft

Product Code: 19506

120mm diameter Hexafix shaft

Product Code: 19507

140mm diameter Hexafix shaft

Product Code: 19508

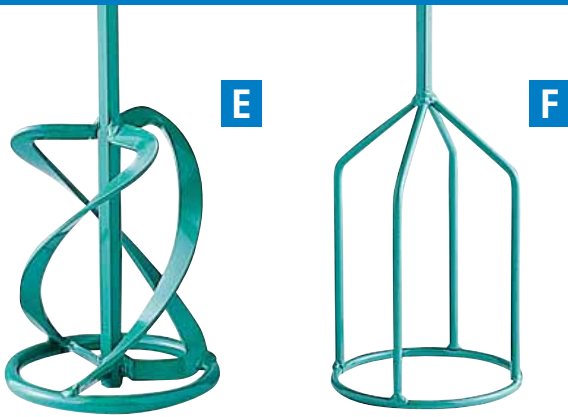

D MK HF Paddles

- Sold in pairs and incorporating a Hexafix Transmission coupling
- Dedicated for use with Duo Power Mixers

MK120HF - 120mm diameter Hexafix shaft pair - Product Code: 09374

MK140HF - 140mm diameter Hexafix shaft pair - Product Code: 09376

Mechanical mixing preparation

E Collomix MK Paddles

- The rugged professional mixing tools for tough daily building site use
- Features 3 mixing blades for fast results with all heavy and viscous materials
- Suitable for highly viscous materials such as plaster, mortar and screeds

Negative Mixing Paddles

(Top to bottom mixing action)

120mm diameter M14 thread shaft
MK120 Neg - Product Code: 19514

140mm diameter M14 thread shaft
MK140 Neg - Product Code: 19515

160mm diameter M14 thread shaft
MK160 Neg - Product Code: 19516

Positive Mixing Paddles

(Bottom to top mixing action)

140mm diameter M14 thread shaft
MK140 - Product Code: 19532

160mm diameter M14 thread shaft
MK160 - Product Code: 19533

100mm diameter Hexafix shaft
MK100S - Product Code: 19511

120mm diameter Hexafix shaft
MK120S - Product Code: 19512

140mm diameter Hexafix shaft
MK140S - Product Code: 19513

F Collomix KR Paddles

- These generate high shear forces for powerful suction effect which prevents lumps forming in your mix!
- Good for homogenisation of fillers, adhesives and sealants
- Material will not stick to the paddles

120mm diameter M14 thread shaft
KR120 - Product Code: 19518

140mm diameter M14 thread shaft
KR140 - Product Code: 19519

120mm diameter Hexafix shaft
KR120S - Product Code: 19517

G Collomix Paddle Extension

- This 400mm extension enables all M14 threaded paddles to be used in taller mixing vessels

Product Code: 19520

A Presentation Stand For 4 Mixers & Paddles

Product Code: 19529

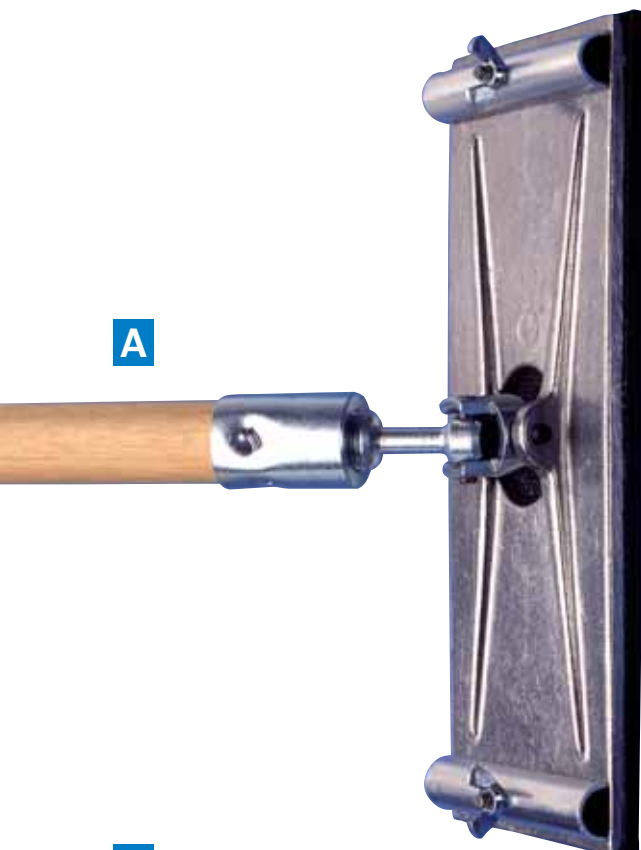

B Presentation Stand For 2 Mixers & Paddles

Product Code: 19530

Whatever the job, Gyproc Tools offer solutions for a professionally prepared surface. Hand sanders for smaller areas; powered equipment for the bigger tasks...Gyproc makes it easier, and safer too, with a full range of filters, masks and dust bags for operator comfort.

B

Hand Sanders

A Gyproc Universal Sander

- The Gyproc Universal Sander is ideal for making a professionally prepared surface!
- Die-cast metal head with universal swivel joint
- Supplied complete with hardwood shaft
- Takes Gyproc Sanding Papers

Product code: 60404

B Gyproc Superstretch Handle

- Robust yet lightweight telescopic extending handle with 3 locking sections – adjustable between 960mm and 2400mm
- When used with the Gyproc Universal Sander head (above), reach is greatly increased
- Significantly reduces operator fatigue

Product code: 09369

C Gyproc Hand Sander

- For smoothing off Gyproc Jointing Materials
- Timber handle
- Takes Gyproc Sanding Papers

Product code: 60210

D Gyproc Block Sander

- General purpose hand sander
- Solvent resistant plastic for durability
- Takes Gyproc Sanding Papers

Product code: 10248

E Stanley 'Surform' Block Plane

- Glass reinforced polypropylene body
- Features a thumbscrew for quick release of the replaceable fine-cut blade
- 155mm length

Product code: 15317

Drylining surface preparation

C

D

E

And don't forget...

Gyproc Sanding Papers

- Cut to suit the Gyproc range of hand and pole sanders
- 25 sheets per pack

100 grit - Product Code: 60211

120 grit - Product Code: 15189

150 grit - Product Code: 19398

Power Sanders

A Gyproc Power Sander

- Makes light work of larger drywall jointing projects
- Rotating sand head is adjustable in 2 planes
- Enables easy operation when working either close to a soffit, near to the ground or when sanding ceiling joints
- Use in conjunction with a dedicated wet/dry vacuum extraction unit (C)
- Both the Gyproc Power Sander and the Gyproc Wet/Dry Vacuum Extraction Unit are controlled simultaneously from a single switch on the sander hand grip
- 100v power
- Variable speed in 4 steps from 1000rpm – 2000rpm
- 4m hose length

Product code: 19406

B Gyproc Compact Power Sander

- This compact version is easy to use in confined spaces and easier to carry and transport!
- Rotating sand head is adjustable in 2 planes
- Use in conjunction with a dedicated wet/dry vacuum extraction unit (C)
- Both the Gyproc Power Sander and the Gyproc Wet/Dry Vacuum Extraction Unit are controlled simultaneously from a single switch on the sander hand grip
- 100v power
- Variable speed in 4 steps from 1000rpm – 2000rpm
- 4m hose length

Product code: 84684

Drylining surface preparation

C Gyproc Wet/Dry Vacuum Extraction Unit

- Connects to the Gyproc Power Sander and Gyproc Compact Power Sander to maintain a clean and healthy working environment
- 100v power
- 27 litre capacity
- 4m hose length

Product code: 10005

Dryliners' choice for professional tools

Vertical or horizontal, metric or imperial, our measuring tools combine pinpoint accuracy with robust design and ease of use.

A Gyproc 5m Measuring Tape

- Metric and imperial calibration
- Retraction lock
- High quality, titanium effect body
- Integrated belt clip
- Width: 19mm

Product code: 60461

B Stanley Powerlock Tape

- Automatic blade return
- Thumb operated lock
- Durable, chrome effect body
- Integrated belt clip
- Available in 2 sizes

5m length – 25mm width

Product Code: 15400

8m length – 19mm width

Product Code: 15401

C Gyproc 30m Chalk Line

- Plastic body with easy fill chalk reservoir
- Foldaway crank gives rapid line rewind (3:1)

Product Code: 09356

D Gyproc 15m Chalk Line

- Lightweight aluminium body
- Foldaway rewind crank
- Can also be used for setting out and as a plumb line

Product Code: 60426

E Gyproc 7m Mini Chalk Line

- 7m chalk line – perfect addition to any tool bag!
- Handy size, plastic body
- Supplied complete with 28g bottle of blue chalk

Product Code: 09357

Blue chalk refill - 113g

Product Code: 15212

A

B

C

D

Drylining measuring & marking

E Gyproc Universal Chalk Refill

- Handy polypropylene squeezy bottle with nozzle and closure
- Differentiating Red chalk
- Suitable for use with all chalk line refills

Product code: 09358

G Gyproc Drywall T-Square

- Robust yet lightweight measuring tool
- Clear engraved metric and imperial calibrations
- Can also be used as a straight edge for cutting
- Size 1200mm x 600mm

Product code: 15396

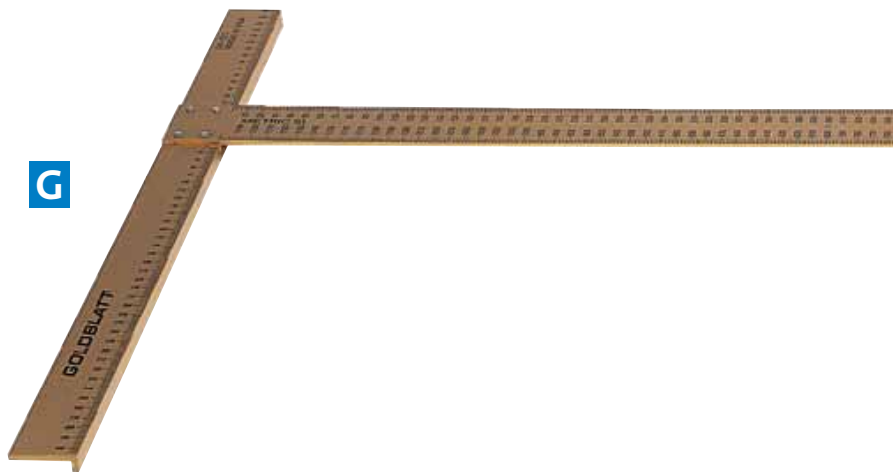

H Gyproc Magnetic Level

- Strong profiled aluminium body sections
- Fitted with powerful magnets – excellent for use with Gypframe metal stud Drylining system components!
- 1 Horizontal and 1 Plumb dial in virtually unbreakable acrylic
- Precision machined working face for improved accuracy – 0.7mm/m
- Available in 3 lengths

600mm - Product Code: 15309

1000mm - Product Code: 15310

1200mm - Product Code: 15311

Straight edges, mitres, internal joints, corners...whatever needs cutting, the Gyproc range has the right tool for the job. The tools are not just practical and accurate, but safe too.

A Gyproc Heavy-Duty Utility Knife

- Heavy-duty die-cast craft trimming knife
- With belt scabbard and 5 spare blades
- Auto re-load

Product code: 84750

Replacement Blades

Box of 100 - Product Code: 15225

Heavy-Duty Blade Dispenser

Safe case, complete with 10 blades

Product Code: 15395

B Stanley Knife

- Die cast craft knife, complete with 5 spare blades

Product code: 15394

C Gyproc WallBoard Trimmer

- The safer alternative to a traditional craft knife!
- Chrome WallBoard trimmer with adjustable side gauge and draw grip
- Adjustable steel cutting wheels for quick and neat edge trimming
- Depth of cut: 100mm
- Can be used with 9.5mm, 12.5mm and 15mm plasterboards

Product code: 15167

D Gyproc Slide Cutter

- The Gyproc WallBoard Trimmer's bigger brother!
- Easily capable of cutting a width of 600mm more than the WallBoard Trimmer!
- Suitable for use with the thickest of plasterboards

Product code: 19413

E Gyproc Circle Cutter

- Cuts round holes cleanly and quickly – for all pipes and other services!
- Calibrated cutting arm for maximum accuracy
- Maximum cutting diameter 406mm

Product code: 15218

D

F Gyproc Utility Saw

- Ideal for cutting service outlet holes in WallBoard
- Extra strength blade with hard point teeth and sharp point
- 150mm blade length

Product Code: 60311

G Gyproc Soft-Grip Utility Saw

- Ideal for cutting service outlet holes in WallBoard
- Tempered steel blade with double-ground teeth for 2-way cutting action
- Ergonomically shaped SoftGrip handle for extra comfort

Product Code: 09377

F

G

Dryliners' choice for professional tools

A Gyproc WallBoard Socket Box Alignment System

- Allows for the accurate location and cutting of socket apertures
- Apertures can be cut with the WallBoard in situ – reducing WallBoard handling and saving you time and money!
- A neat finish every time is guaranteed

Double Socket Cutter

Product Code: 57104

Single Socket Cutter

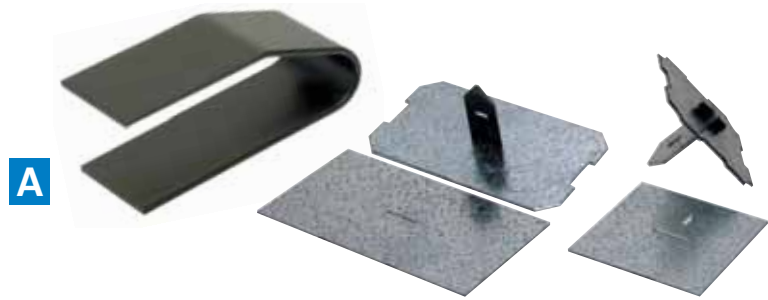

Product Code: 57103

Single Light Switch Socket Cutter

Product Code: 57102

WallBoard Jack - Pack of 2

Product Code: 57105

B Gyproc WallBoard Saw

- Ideal for cutting Gyproc Plasterboards and Glasroc Specialist Boards
- Fine-set, hard point saw with 5mm tooth pitch, with a 375mm blade length

Product Code: 60441

C Gyproc Cove Saw

- Ideal for cutting Artex and Gyproc Cove and Cornice
- Can also be used for cutting Gyproc Plasterboards and Glasroc Specialist Boards
- Fine-set, hard point saw, with a 380mm blade length

Product Code: 60482

D Gyproc Cove Mitre

- Simple metal guide for cutting mitred angles on both Artex and Gyproc Cove and Cornice
- Full instructions supplied

For use with 100mm and 127mm Cove

Product Code: 15201

For use with 135mm Cornice

Product Code: 60445

E Gyproc Cove Mitre Box

- Perfect tool for cutting mitres on both 100mm and 127mm Gyproc cove
- Supplied in boxes of 4

Product Code: 80398

E Gyproc Magic Mitre

- Works like magic!
- Cuts the most accurate mitres on all Artex and Gyproc Cove and Cornice products
- Can also be used for other decorative mouldings and even for joinery applications!

Product Code: 60398

G Cut-Off Saw

- Fully portable chop-saw
- Quick-action vice and safety shroud
- 355mm cut-off wheels, wheel arbour and socket wrench
- 115mm maximum cutting capacity
- 16.3kg net weight
- 3800 rpm
- 1650w Power Rating
- 110 volt

Product Code: 15199

Abrasive cut-off wheels

Pack of 15, 350mm x 3mm x 25.4mm

A Gyproc Aviator Metal Framing Snips

- Ideal when installing Gypframe metal partition and wall lining systems
- Sprung cantilever assisted action will cope with metal sections up to 1.25mm thick
- Cushioned handgrips make them comfortable to use
- Straight cut blades

Product Code: 09359

B Aviator Wiss Straight-Cut Metal Snips

Product Code: 15209

C Aviator Wiss Long Blade Metal Snips

Product Code: 15330

D Aviator Wiss Left-Cut Metal Snips

Product Code: 15257

E Aviator Wiss Right-Cut Metal Snips

Product Code: 15258

And don't forget...

Metal Framing Gloves

- Protection of palms and fingers
- Light rubberised coating preserves natural articulation, sensitivity and grip
- Good resistance to cuts
- Cotton interlock lined with elastic cuff – fully machine washable

Product code: 15226

F Gyproc Heavy Duty Crimping Tool

- Punches and locks together 2 metal sections of up to 0.7mm effortlessly
- A powerful drop forged tool for use with metal framing systems

Product Code: 75109

G Gyproc Crimping Tool

- Strong general-purpose crimper
- Angled head, cantilever action and spring return
- Will crimp metal sections up to 0.5mm

Product Code: 15294

H Whitney Hand Punch

- Over 100kgs of punching power!
- A great alternative to drilling where suspended ceiling or metal frame systems have to be bolted together
- 7 alternative punch sizes which come complete with hand carrying case
- Adjustable back-stop makes repetitive operations significantly easier
- Punch diameter sizes
3/32 to 9/32 in 1/32 increments

Product Code: 15420

I Gyproc Interlocking Stud Tool

- Ideal for use with Gypframe metal stud when boxed or extended lengths are required
- The lever action punches and locks studs together with minimum effort
- Base is ready-drilled for bench mounting if required

Product Code: 60429

A

Automatic Staplers

A Pulsar IM200/50 Stapler

- Users can achieve up to a 50% saving in plasterboard fixing time and 40% cost saving compared to screw fixing
- This powerful, cordless tool employs a gas fuel source and electronic ignition to give continuous operation and high performance
- Dead trigger lockout prevents accidental firing
- Supplied complete with rapid battery charger and carrying case
- Also capable of quick and effective fixing of Glasroc specialist boards
- Supplied complete with rapid battery charger and carrying case
- Staples and fuel cells are supplied as a pack

Product Code: 15236

Pulsar Staple Pack

- Contains 3000 staples and 3 fuel cells

Product Code: 19400

Automatic Nailers

B Pulsar 700P Gas Powered Nailer Kits

- Designed specifically for fixing metal frame drylining systems
- Will cope with the deepest channel sections
- Fixes into masonry walls, floors, soffits and structural steelwork
- Unique energy system using gas and electronic ignition – gives a continuous cordless operation with performance and economy far superior to cartridge type driver-guns
- A dead trigger and lockout mechanism means the tool cannot be fired accidentally
- Captive piston controls fixing depth automatically preventing over-penetration
- Supplied complete with rapid battery charger and carrying case
- Nails in a range of sizes and fuel cells supplied as a pack

Product Code: 15367

B

Automatic Screw Drivers

A Makita Mains Screwdriver 110v

- Double insulated tool features a variable speed trigger and includes a Phillips No. 2 insert bit
- Magnetic bit holder with locator and stopper
- Power rating 570w
- Net weight 1.4kg
- Variable speed 0-45rpm – both forward and reverse
- Available as 110v only

Product Code: 19418

B Makita R Drywall Screwdriver 110v

- Double insulated tool features a variable speed trigger and includes a Phillips No. 2 insert bit
- Magnetic bit holder with locator and stopper
- Power rating 570w
- Net weight 1.4kg
- Variable speed 0-6000rpm – both forward and reverse
- Available as 110v only

Product Code: 19015

And don't forget...

Two Pocket Nail Pouch

- A medium soft leather pouch with 2 compartments for nails or screws
- Webbing belt
- Rivet reinforced double stitched seams

Product Code: 15303

Five Pocket Tool & Nail Pouch

- A medium soft leather pouch with 2 compartments for nails or screws
- 3 additional tool pockets and a hammer loop

Product Code: 15305

Ten Pocket Tool & Nail Pouch

- A twin-pouch in medium soft leather pouch with 2 adjustable belts
- Double stitched seams are rivet reinforced
- 4 compartments for nails or screws with more pockets and loops for tools
- Additional metal clip offers handy stowage of a measuring tape

Product Code: 60476

Cordless Drill Holster

- Keeps cordless drill or screwdriver easy to hand
- Retaining strap with press-stud fastener
- Top grain cowhide

Product Code: 15302

C Makita 6833 Autofeed Screwdriver

- The ultimate screwdriver for use with collated screws
- Single control depth adjustment for different screw settings
- Includes carrying case
- Drywall screw capacity 41mm
- Net weight 1.9kg
- Variable speed 0-4700rpm – both forward and reverse
- Power rating 470v

Product Code: 15410

D Makita 6835 DWDE Cordless Autofeed Screwdriver

- A dedicated cordless Drylining tool with similar features to its mains powered brothers!
- For use with collated screws
- Includes charger
- 2.1Ah battery cartridge
- Drywall screw capacity 41mm
- Net weight 2.1kg
- Speed 2000rpm

Product Code: 15357

12v Battery for 6835 Screwdriver

Product Code: 15360

Dryliners' choice for professional tools

The Gyproc Tools range of plasterboard handling equipment has been specially designed to minimise manual handling of plasterboard and therefore increase both safety and efficiency on-site.

A Gyproc Boardlift

- Take the effort out of fitting soffits and ceiling linings!
- Enables safe and efficient installation of even the heaviest plasterboards
- Chain and gear mechanism delivers an effortless lift for ceiling heights from 1.7m up to 3.2m
- 5-Point wheel base allows precise positioning whilst providing stability
- Dismantles easily for transportation

Product Code: 19408

B Gyproc Drywall Cart

- Plasterboard transporter with vertical removable support bar
- Ideal for internal use on level surfaces
- Excellent manoeuvrability for limited loads
- 30mm Tubular steel construction with 2 fixed and 2 swivelling polypropylene castors
- Length: 1110mm, Width: 560mm, Height: 1140mm

Product Code: 15292

Additional accessories

Spare Swivel Wheel

Product Code: 10080

Spare Fixed Wheel

Product Code: 10081

A

B

C Gyproc Projack

- An extra pair of hands when fixing plasterboards overhead!
- Has a plate at each end to support up to 30kgs (at heights between 1150mm and 2900mm)
- Plate size of 130 x 80mm
- Each plate has a universal swivel joint to compensate for irregular or inclined surfaces
- Extending shaft with a trigger-grip which extends the shaft in increments to give precise extension and clamping pressure

Product Code: 19410

D Gyproc Jackal

- A toolbox essential!
- This board-lifter can be positioned where a footlifter does not fit
- Gives a precisely controlled vertical lift from the floor and jacks the plasterboard into position
- Allows plasterboards to be screwed single-handedly!
- Trigger grip raises and locks the lifting plate in small increments from 4mm to 285mm
- Maximum load 25kgs

Product Code: 19409

E Gyproc Footlifter

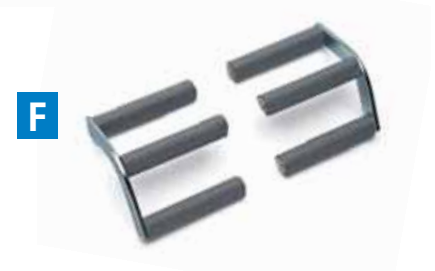

- Simple and efficient tool for jacking plasterboards into position
- Leaves hands free for plasterboard fixing
- Adjustable toe stirrup

Product Code: 60381

F Gyproc Wallboard Carriers

- Easier movement of large heavy sheets of plasterboard
- Forged steel with rubberised non-slip grips for easy handling

Product Code: 15398

G-In™ in action

The G-In™ system transfers plasterboards from the delivery vehicle onto the building site, transports them to the place of application and will position them ready for installation, avoiding all manual handling.

Step 1

Load the Plasterboard onto the G-In™ Lift-Rack and secure with straps

A G-In Lift Rack

- Specially engineered hoisting frame for plasterboard stacks
- Reduces manual handling of plasterboard on-site
- Allow for significant cost-reductions in labour to move plasterboard around the site
- Suitable for both 900mm and 1200mm width plasterboards
- Suitable for all plasterboard lengths

Product Code: 19553

Step 2

The G-In™ Lift-Rack is hooked on to the site crane, hoisted to the floor or area where the plasterboard is to be used or stored.

Step 3

Locate the G-In™ Lift-Truck under the plasterboard stack, pump it up and lift the stack from the G-In™ Lift-Rack, which can then be moved away.

B G-In Lift Truck

- Hydraulic pump action trolley to move plasterboard stacks to the exact site of installation
- Works with the G-In™ Lift Rack
- Also highly effective if used for moving plasterboard stacked from a crane or forklift too
- Highly manoeuvrable 4 wheeled steering
- Tight turning circle of 1.5 metres
- Handle detaches for even tighter spaces or for easier unit transportation
- Profiled steel with pressure impregnated wood platform
- Puncture-proof tyres, pop-up spacer bars and detachable cargo supports

Product Code: 19550

Additional Accessories

Complete Handle

Product Code: 19555

Chain (between hydraulic unit and handle)

Product Code: 19556

Complete Hydraulic Unit

Product Code: 19557

Puncture-Proof Wheels

Product Code: 19016

Step 4

The G-In™ Lift-Truck has four-wheel steering provides ultimate manoeuvrability around the tightest areas on site

G-In™ plasterboard handling & transportation

C

D G-In Transit Bench

- A plasterboard transporter and work bench in one product!
- Transports several sheets of plasterboard vertically
- Then converts into a sturdy working bench at safe working height
- Allows plasterboard cutting and preparation to be carried out at correct working height
- Positioning of the transit bench wheels provides steady transportation – even over thresholds, cables, pipes and other small obstacles!

Product Code: 19551

Additional Accessories

Lockable Small Swivel Wheels - 160mm diameter

Product Code: 19558

Small Swivel Wheels - 160mm diameter

Product Code: 19559

One pair of Support Arms

Product Code: 19560

Manoeuvring Pedal

Product Code: 19561

D

Step 5

When at the place of installation, lift the G-In™ Lift-Truck platform, and place the G-In™ Trestles under the plasterboard stack*, meaning the G-In™ Lift-Truck can be moved away.

*number of trestles required depends on board length

C G-In Trestle

- Supports plasterboards off ground at a safe height for working
- Works with the G-In™ Lift Truck
- Space the trestles along the length of the plasterboards to prevent distortion
- Manufactured from specially toughened steel
- Working load of 400kg per trestle
- Strength is maintained for the life of the product
- Folds for minimal storage
- Number required depends on board length and weight (typical minimum number required = 3 units)

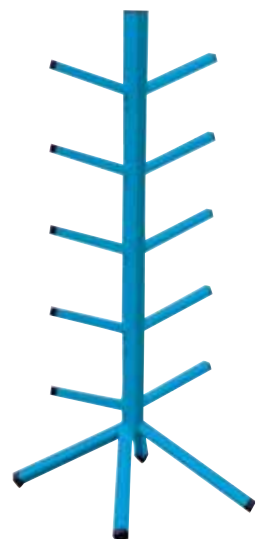

Product Code: 19552

E G-In Branch Rack

- Safe storage of plasterboard accessories or system components
- Can be fitted together to form a freestanding unit, or can be installed on a wall
- Two or more branch racks can be used together for the safe and effective storage of long components such as metal stud or plasterboard beads

Product Code: 19554

E

Plasterers' choice for professional tools

A Thistle Plaster Finishing Trowel

- Range of premium quality stainless steel plaster trowels
- 'Gold' treated blades to prevent staining
- Centre-ground blades to produce an extra smooth face
- All tools have a lightweight magnesium tang which complements the ergonomic Soft Grip handle for perfect balance and reduces user fatigue
- Hand finished blade edges give a ready 'broken-in' feel giving an impeccable end result to be achieved from the first day of service

Cove & Plaster finishing tools

E Trowel & Square

- Craft tools for making good and finishing of Gyproc Cove and Cornice
- Also used for the finishing of ornamental plasterwork
- Hardened, tempered solid-forged spring steel

13mm - Product Code: 15207

19mm - Product Code: 10251

25mm - Product Code: 15377

F Leaf & Square

- Craft tools for making good and finishing of Gyproc Cove and Cornice
- Also used for the finishing of ornamental plasterwork
- Hardened, tempered solid-forged spring steel

11mm - Product Code: 15208

16mm - Product Code: 60447

25mm - Product Code: 15379

G Spatula

- Used for paring and flattening one-coat plasters as the material progressively stiffens
- Stainless steel blade
- Blade width 500mm

Product Code: 60414

H Plasterer's Water Brush

- Tolerates prolonged exposure to water
- Genuine pig bristles
- Handle of close-grained treated hardwood
- Copper ferrule secured by non-ferrous pins

125mm - Product Code: 15661

150mm - Product Code: 15445

I Plasterer's Sacrificer

- Provides a key on undercoat plasters
- Flat, lightly sprung tines
- Dip galvanised finish
- Width 300mm

Product Code: 60449

J Sponge Float

- For scouring the surface of one-coat plasters prior to finishing
- Quality, plastic sponge float
- Length: 300mm, Width: 120mm

Product Code: 15211

K Internal Angle Trowel

- Ideal for finishing rendered internal corners
- Corrosion-proof polyurethane

Product Code: 15273

A

Rules, Darbies & Feather Edges

A Gyproc Darbies

- Adjustable for span
- Extruded aluminium
- Detachable wooden handles with rubber callous guards
- Lightweight aluminium profile
- Available in 2 sizes

1.2m - Product Code: 10252

1.8m - Product Code: 15277

B

B Feather Edge

- For spreading large areas of plasters to a ruled and planed surface
- Helps to eliminate sags and hollows
- Lightweight aluminium
- Available in 3 sizes

1.8m - Single - Product Code: 15204

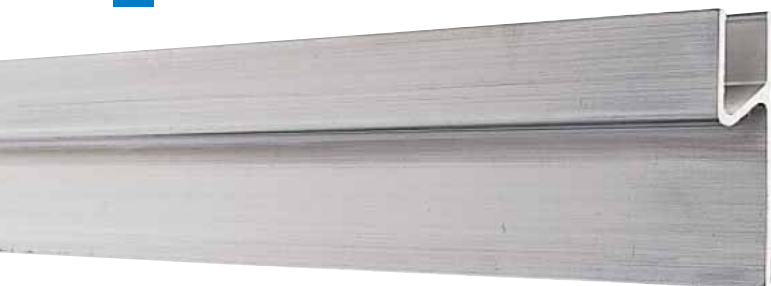

1.8m - Pack of 5 - Product Code: 15455

2.5m - Single - Product Code: 60478

2.5m - Pack of 5 - Product Code: 60483

3m - Single - Product Code: 15202

3m - Pack of 5 - Product Code: 19106

C

C Gyproc 'Stay-True' Feather Edge

- Precision engineered magnesium for increased accuracy
- Lightweight and perfectly balanced
- Profiled grip for true fingertip control
- Reduced user fatigue
- Blade width 400mm, length 1.8m

Product Code: 15348

D Flooring Rule / Straight Edge

- For ruling and can also be used as a straight edge
- Lightweight aluminium profile
- Convenient finger grips for ease of use
- Available in 2 sizes

2m - Product Code: 60477

3m - Product Code: 15319

D

And don't forget...

Mortar Stand

- Supports a mortar board at a comfortable working height
- Strong yet lightweight tubular steel
- Folds flat for easy transportation
- Open dimensions: 600mm x 600mm
- Height 810mm

Product code: 15666

Heavy Duty Floor Scraper

- Extremely robust scraper
- Supplied complete with tubular steel shaft
- Blade width: 200mm, depth: 80mm

Product code: 60411

Spare Blades - Product Code: 15315

Extra-Wide Heavy Duty Floor Scraper

- Extremely robust scraper
- Supplied complete with tubular steel shaft
- Blade width: 450mm, depth: 125mm

Product Code: 15224

Spare Blades - Product Code: 15223

E

E Joint Rules

- For ruling rebates and reveals
- High quality steel
- Ground chamfered edge
- Available in 5 sizes

4" - Product Code: 15290

6" - Product Code: 60455

8" - Product Code: 60456

10" - Product Code: 60457

12" - Product Code: 15286

F Gyproc Heavy-Duty Flooring Rule

- Tough enough to cope with heavyweight floor screeds
- Robust extruded aluminium profile
- Polypropylene stop-ends
- 10mm x 40mm, available in 3 lengths

2m - Product Code: 15363

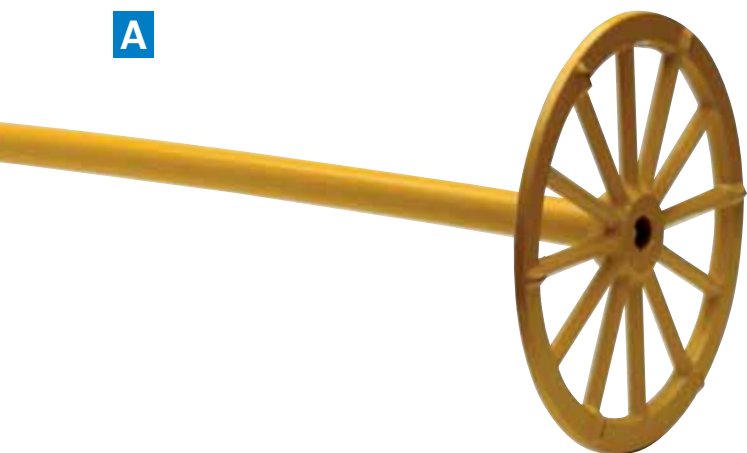

2.5m - Product Code: 15364

3m - Product Code: 15365

F

A

Mixing Wheels

A General Purpose Mixing Wheel

- Light yet effective mixing wheel
- Suitable for bucket mixing of Gyproc jointing materials and Thistle finishing plasters

Product code: 60451

B Heavy-Duty Mixing Wheel

- Forged steel mixer suitable for heavy-duty use with all Thistle plasters, Gyproc Cove and DriWall Adhesives and Gyproc Jointing Materials
- Designed to minimise material build-up on bucket walls

Product code: 60040

B

Mixing Vessels

C Gyproc Mixing Tubs

- Durable polyethylene mixing tubs with moulded handles for easier lifting and carrying
- Ideal for all types of plaster, jointing compounds and mortars

25 Litre, 400mm diameter, 300mm deep

Single - Product Code: 15436

Pack of 5 - Product Code: 15437

40 Litre, 450mm diameter, 330mm deep

Single - Product Code: 15438

Pack of 5 - Product Code: 15439

65 Litre, 550mm diameter, 420mm deep

Single - Product Code: 15440

Pack of 5 - Product Code: 15441

C

Manual mixing preparation

D Mixing Bath

- A large and sturdy polypropylene vessel, ideal for plaster mixing
- 165 litre capacity
- 120mm length, 510mm width

Single - Product Code: 15274

Pack of 5 - Product Code: 15659

Pack of 10 - Product Code: 15307

D

E Heavy-Duty Mixing Bucket

- Tough, polypropylene site bucket– will outlive the PVC alternatives many times over!
- 30 litre capacity
- 380mm depth

Single - Product Code: 15300

Pack of 10 - Product Code: 15306

E

F Gyproc Bucket Trowel

- Stainless steel blade
- Special shaped blade for efficient use with a mixing bucket
- Blade 150mm x 80mm

Product code: 60458

F

Collomix

The Collomix range of professional mixing tools save time, money and effort on site. Designed to mix a variety of materials with maximum safety, each one incorporates unique gear systems and ergonomic design technology for operator comfort.

B C D

A Collomix CX10 Power Mixer

Batch loads < 30 litres

- Powerful yet light and compact electronic power mixer with a single speed gearbox
- Ideal for mixing batch loads of up to 30 litres
- Adjustable speed control up to 670rpm
- Supplied complete with a WK120 mixing paddle

110 volts - Product Code: 19527

230 volts - Product Code: 19523

B Collomix CX20 Power Mixer

Batch loads < 40 litres

- 2 speed gearbox provides speed control to handle a wide range of jobs easily
- A rugged and powerful machine designed for mixing batches of up to 40 litres
- Adjustable speed control from 400 to 700rpm
- Supplied complete with a MK120 negative mixing paddle

110 volts - Product Code: 19526

230 volts - Product Code: 19522

C Collomix CX40 Power Mixer

Batch loads < 65 litres

- Powerful universal mixer designed to cope with high demand!
- Powerful motor and 2 speed gearbox combined with a heavy-duty drive system provides reliability and a long working life
- Ideal for high viscosity mixing in batches up to 65 litres
- Supplied complete with a MK140 negative paddle

110 volts - Product Code: 19525

230 volts - Product Code: 19521

D Collomix CX60 Power Mixer

Batch loads < 90 litres

- Top of class machine for the most demanding heavy-duty applications!
- Featuring sophisticated electronics, 2 speed gearbox – this machine is ideal for continuous use on site
- Ideal for high viscosity mixing in batches up to 90 litres
- Supplied complete with a MK160 negative paddle

110 volts - Product Code: 19524

230 volts - Product Code: 19534

Mechanical mixing preparation

Duo Hexafix Collomix

New to the Collomix range of professional mixing tools are the Duo Hexafix Paddle models that save even more time, money and effort on site.

The Duo range machines feature double the mixing power with two counter-rotating paddles that suit the machine's HexaFix transmission coupling – meaning easy disassembly of the paddles from the unit!

Hexafix – the simple way to change!

The new Hexafix coupling system for Collomix power mixers means the mixers can be changed over without the need for any tools!

E F

E Collomix Duo CX22 Power Mixer

Batch loads - 50 litres

- Outstanding power and capability is provided with the new Duo CX22 Collomix mixer
- Features a 2 speed gearbox for versatile mixing
- Additional power means it is comfortable to use and steer in even the most viscous of mixes
- Supplied complete with a pair of MK120 HF mixing paddles

110 volts - Product Code: 09373

F Collomix Duo CX44 Power Mixer

Batch loads - 90 litres

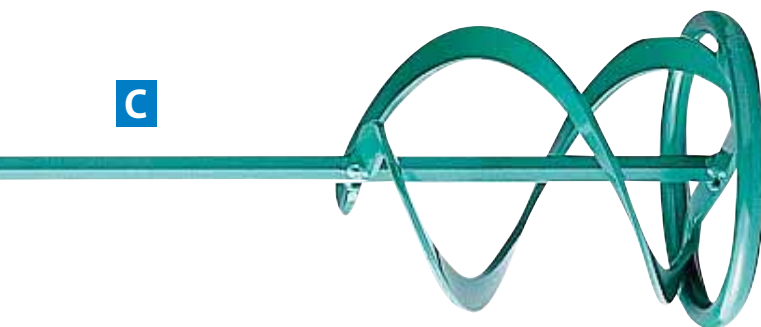

- Outstanding power and uncompromising forced action mixer – designed for continuous daily use on site!
- Features a 2 speed gearbox for versatile mixing
- Can handle even the toughest of mixes in batches of up to 90 litres
- Supplied complete with a pair of MK140 HF mixing paddles

110 volts - Product Code: 09375

Collomix Paddles

All Collomix power mixer paddles are made of steel with a powder-coated finish and feature strong welded joints ensuring ultimate strength, operational safety and the longest useful working life!

The range of paddles offered means there are paddles for all requirements and types of mixing. For optimum mixing results it is essential to select the right mixing tool. Depending on what sort of material you are mixing, you will need different paddles as follows:

A Collomix FM Paddles

- Classic paint mixer

100mm diameter M14 thread shaft

Product Code: 19505

60mm diameter Hexafix shaft

Product Code: 19501

80mm diameter Hexafix shaft

Product Code: 19502

100mm diameter Hexafix shaft

Product Code: 19503

120mm diameter Hexafix shaft

Product Code: 19504

140mm diameter Hexafix shaft

Product Code: 19531

B Collomix KRK Paddles

- Simply attach to your power drill for fast effective mixing!
- Mixing tools with galvanised shaft and a plastic basket which generates a powerful suction effect – swirling the material without splashing!
- Suitable for small volumes of thin material

Product Code: 19500 – KRK60

C Collomix WK Paddles

- Suitable for a wide range of mixes
- Features a double mixing helix making it easy to guide
- Suitable for most viscous and sticky materials such as plaster, ready-mixed mortar and tile adhesives

120mm diameter M14 thread shaft

Product Code: 19509

140mm diameter M14 thread shaft

Product Code: 19510

90mm diameter Hexafix shaft

Product Code: 19506

120mm diameter Hexafix shaft

Product Code: 19507

140mm diameter Hexafix shaft

Product Code: 19508

D MK HF Paddles

- Sold in pairs and incorporating a Hexafix Transmission coupling
- Dedicated for use with Duo Power Mixers

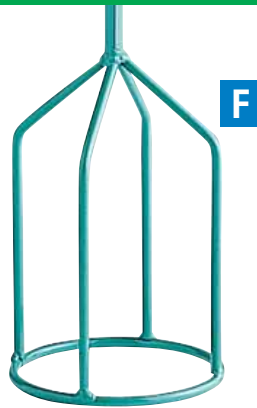

MK120HF - 120mm diameter Hexafix shaft pair - Product Code: 09374

MK140HF - 140mm diameter Hexafix shaft pair - Product Code: 09376

Mechanical mixing preparation

E

F

E Collomix MK Paddles

- The rugged professional mixing tools for tough daily building site use
- Features 3 mixing blades for fast results with all heavy and viscous materials
- Suitable for highly viscous materials such as plaster, mortar and screeds

Negative Mixing Paddles

(Top to bottom mixing action)

120mm diameter M14 thread shaft

MK120 Neg - Product Code: 19514

140mm diameter M14 thread shaft

MK140 Neg - Product Code: 19515

160mm diameter M14 thread shaft

MK160 Neg - Product Code: 19516

Positive Mixing Paddles

(Bottom to top mixing action)

140mm diameter M14 thread shaft

MK140 - Product Code: 19532

160mm diameter M14 thread shaft

MK160 - Product Code: 19533

100mm diameter Hexafix shaft

MK100S - Product Code: 19511

120mm diameter Hexafix shaft

MK120S - Product Code: 19512

140mm diameter Hexafix shaft

MK140S - Product Code: 19513

F Collomix KR Paddles

- These generate high shear forces for powerful suction effect which prevents lumps forming in your mix!
- Good for homogenisation of fillers, adhesives and sealants
- Material will not stick to the paddles

120mm diameter M14 thread shaft

KR120 - Product Code: 19518

140mm diameter M14 thread shaft

KR140 - Product Code: 19519

120mm diameter Hexafix shaft

KR120S - Product Code: 19517

G Collomix Paddle Extension

- This 400mm extension enables all M14 threaded paddles to be used in taller mixing vessels

Product Code: 19520

Collomix In-Store Merchandising

Paddle presentation stands, Mixer presentation stands and Combination presentation stands are available for in-store merchandising. Contact Artex for more information on how to obtain your stock and presentation stands.

A Presentation Stand For 4 Mixers & Paddles

Product Code: 19529

B Presentation Stand For 2 Mixers & Paddles

Product Code: 19530

Plasterers' choice for professional tools

Vertical or horizontal, metric or imperial, our measuring tools combine pinpoint accuracy with robust design and ease of use.

A

B

C

A Gyproc 5m Measuring Tape

- Metric and imperial calibration
- Retraction lock
- High quality, titanium effect body
- Integrated belt clip
- Width: 19mm

Product code: 60461

B Gyproc 30m Chalk Line

- Plastic body with easy fill chalk reservoir
- Foldaway crank gives rapid line rewind (3:1)

Product Code: 09356

C Gyproc 15m Chalk Line

- Lightweight aluminium body
- Foldaway rewind crank
- Can also be used for setting out and as a plumb line

Product Code: 60426

D Gyproc 7m Mini Chalk Line

- 7m chalk line – perfect addition to any tool bag!
- Handy size, plastic body
- Supplied complete with 28g bottle of blue chalk

Product Code: 09357

Blue chalk refill - 113g

Product Code: 15212

E Gyproc Universal Chalk Refill

- Handy polypropylene squeeze bottle with nozzle and closure
- Differentiating Red chalk
- Suitable for use with all chalk line refills

Product code: 09358

Measuring & marking tools

F Gyproc Drywall T-Square

- Robust yet lightweight measuring tool
- Clear engraved metric and imperial calibrations
- Can also be used as a straight edge for cutting
- Size 1200mm x 600mm

Product code: 15396

G Gyproc Magnetic Level

- Strong profiled aluminium body sections
- Fitted with powerful magnets – excellent for use with Gyframe metal stud Drylining system components!
- 1 Horizontal and 1 Plumb dial in virtually unbreakable acrylic
- Precision machined working face for improved accuracy – 0.7mm/m
- Available in 3 lengths

60mm - Product Code: 15309

1000mm - Product Code: 15310

1200mm - Product Code: 15311

Stanley Powerlock Tape

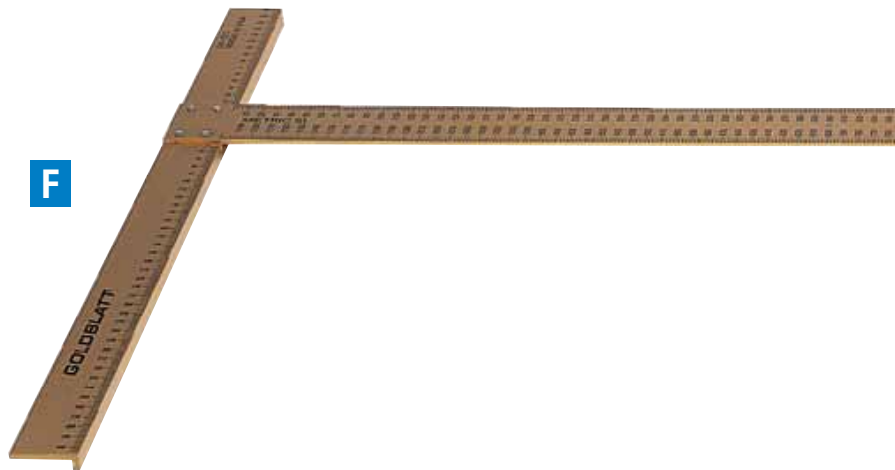

- Automatic blade return
- Thumb operated lock
- Durable, chrome effect body
- Integrated belt clip
- Available in 2 sizes

5m length – 25mm width

Product Code: 15400

8m length – 19mm width

Product Code: 15401
